Hi My dear Greek friends,

We have arrived safe and sound in Portugal. Staying with you all, during this week was a priceless experience. Not only because of the great program you'd prepared but mainly because all you were fully available for us and really cared about us like the Gods in Olympus looked after human beings. Though your country is facing hard times we noticed that "all clouds have got a silver line" and consequently among you the spirit of solidarity and friendship has arisen. After all that is what a full life is about: the true friendship that will remain beyond projects and bureaucracies and we are sure we've already achieved that. Many thanks for your sincere hospitality.

Hugs and kisses for you all

the portuguese team: José and Liberato

Dear partners, dear friends! The third transactional meeting in Athens is over and we are already at home, starting again our daily routine. But the truth is: our bodies are already here, in Lithuania, but our souls are still in Greece. We spent unforgettable days with you, our Greek friends, we were surrounded by your friendliness and hospitality, we got a lot of impressions about history, culture, traditions (and problems!) of Greece... We enjoyed time spent with our Portuguese and Turkish partners, working at school and exploring Athens together. **THANK YOU ALL, FOR VALUABLE EXPERIENCE, NEW IDEAS AND NICE TIME TOGETHER!**

Our beloved partners and friends, no matter how Greece is on a difficult period it was proven once again that friendship, culture and history brings people worldwide together and cannot be put in the narrow frames of any difficulty. We share the same feelings with you, you are in our hearts and we already miss you.
