

LET THE GAME BEGIN

On Wednesday, since the weather was fantastic, we and our friends from Lithuania decided to play a [football match](#).

So, after the presentations of what Greece and Turkey had created we went down to our school yard and after a little warm up we started playing.

It was an intense game since the score leader changed a lot of times during the match. The Lithuanians scored the first goal but the Greeks managed to come back.

After 30' we did a break to rest and drink some water and then we continued.

In the end of the match [both teams gave hands](#) and everyone was happy but at the same time tired.

Both teams did their best, although in the end nobody cared about the score.

[We look forward to meet our Lithuanians friends for a rematch](#)
